Profile

Finishing and construction project manager with more than twenty years of work across Nigeria. Takes buildings from structure to final finish: marble and stone, bathrooms, ceilings, floors, pools, facades and landscape. Runs the crews on site every day, holds work to an exact standard, and makes on site what cannot be bought locally.

Expertise

- Finishing management for villas, halls and large buildings
- Bathrooms, spas, pools and water features
- Facades, balustrades, paving and landscape
- On-site manufacturing of elements not available locally
- Marble, onyx and stone: book-matched walls, inlays, medallions
- Ceilings: domes, suspended ceilings, cove lighting, stained glass
- Interior design drawings and kitchen layouts
- Site management, crew leadership, quality and safety control

Experience

General Manager, RAZANCO Nigeria Limited, Lagos Current

- Runs finishing and construction projects from design to handover for private owners, consultants and construction firms.
- Leads site teams of masons, tilers, carpenters and labourers, and coordinates with architects, engineers and consultants.
- Inspects work daily and sets the quality and safety standard on every site.
- Designs and makes elements that cannot be bought locally, such as cast balustrades and lighting poles.
